Compliance, risk management and code of conduct

COPSESA counts on an officer trained in compliance and risk management in-house as an essential task of the Legal department.

Also, we have a code of conduct, with the aim of helping people to carry out correct activities along COPSESA's values and also acting in accordance with current legislation.

Comliance, risk management and code of conduct

COPSESA is committed to building a better working world one that creates sustainable and inclusive economic growth. We recognize that our responsibility to minimize the environmental impact of COPSESA business operations extends to COPSESA people and clients

COPSESA measures his carbon footprint annually and report our environmental impact via the United Nations Global Compact (UNGC). Also, COPSESA has granted the UNE-EN-ISO 14061-1:2012 by the Asociación Española de Normalización y Acreditación, AENOR.

All the electricity in the COPSESA offices is green energy, setting us up to be 100% renewable and net zero carbon in our offices. We work with all the employees, clients and suppliers for reduce the carbon footprint in all our activity with de goal to be enviroment neutral in 2025

COPSESA

Corporate Social Responsibility

Corporate Social Responsibility (CSR)

COPSESA is aware of the impacts that our decisions and activities cause on society and the environment.

We incorporate our Corporate Social Responsibility (CSR) strategy in the day-to-day management of the organization, promoting ethical, social, and labor values of respect for human and environmental rights. Our way of managing Corporate Social Responsibility is based on an annual strategic planning of objectives and a methodology

COPSESA promotes the effective implementation of the principle of equality between men and women, encouraging a more balanced gender distribution in the workforce, ensuring and improving working conditions for men and women, promoting work-life balance, supporting equality related training and preventing discrimination.

COPSESA has been the first construction company in its region to be signatory partners of the United Nations Global Compact and supporting broader UN goals

We share the objective of the United Nations Global Compact of ethical management based on the Ten Principles and we want to contribute to the achievement of the Sustainable Development Goals (SDGs)

We participate in the United Nations Global Compact as a Signatory Partner and all of our Corporate Social Responsibility are aligned with the Sustainable Development Goals (SDGs)
